

NAUT

DISCOVER NAUT

# Boating redefined

Boating with Naut means choosing a new way of connecting with the water. Our cutting-edge electric propulsion systems provide the power, sustainability, and quiet efficiency you've been searching for. Naut's inboard and outboard motors are designed to offer you unparalleled performance with minimal environmental impact.

#### Whisper-quiet

Enjoy the sounds of nature, without the hum of a traditional motor.

#### Effortless operation

Smart technology ensures a smooth ride and real-time data to keep you informed.

#### Eco-friendly

Reduce your carbon footprint and protect the waters you love.

# The powerful story of electric

Whether you are looking for an outboard or inboard. Naut combines top-tier craftsmanship with powerful electric propulsion, making it the perfect choice for those who want performance without sacrificing style or comfort.

## TAILORED FOR YOUR NEEDS:

Whether you're upgrading an existing vessel or purchasing new, Naut's systems are designed for easy installation and complete customisation. Choose your ideal boat, and we will make it happen, with a propulsion system tailored to your specific needs.

## SUSTAINABILITY WITHOUT COMPROMISE:

Our electric motors provide high performance while being easy on the environment—helping you leave a smaller footprint while enjoying the open water.

## UNWAVERING SAFETY:

As experts in electric propulsion technology, we work closely with Maritime NZ to ensure that everything we do fits with upcoming regulations.

## SPECS

### POWER

Continuous power: 300hp / 225kW  
Peak power: 525hp / 405kW

### SPEED

Typical cruising speed: 18-25 knots  
Top speed: 45 knots, dependent on vessel design

### BATTERY CAPACITY

Battery capacity options range from 60kWh to 2000kWh, tailored to your preferred performance and range

### RANGE

Cruising range: Up to 60nm  
Extended range: Up to 200nm at lower speeds

### DRIVE TYPE

Suitable for stern drive, shaft drive, Jet unit or Naut outboard

Performance will vary depending on factors such as boat design, weight, and operating conditions. For personalised details, please consult with our team.

Experience the future of boating.
